**Review Date:** **February 2020**

## 1. POLICY OBJECTIVE AND EXPECTED OUTCOMES

The objective of this policy is to ensure that WGCMA employees do not engage in any activities that could pose a conflict of interest. A conflict of interest can be actual, potential or perceived. Conflict of interest can be described as any direct or indirect interest in, connection with or benefit from any outside activities, especially commercial activities, which might in any way adversely affect the WGCMA.

Where an employee cannot avoid a conflict of interest then the employee should immediately declare the conflict to the Chief Executive Officer.

This policy also covers Gifts and Benefits.

The procedure will specifically focus on what action needs to be taken in relation to engagement and acceptance of a private benefit and/or gift:

## 2. POLICY STATEMENT

The WGCMA will actively pursue and promote a workplace culture that eliminates or reduces the potential for conflict of interest.

It is not possible to define all potential areas of conflict of interest and if you are in doubt you should discuss this with your Unit Manager or CEO.

As a general rule and in accordance with the Water Act 1989 employees shall not, without written permission:-

- engage in any business; or
- engage in the private practice of any profession or trade; or
- hold any office in any corporation, other than a municipal council; or
- engage in any employment other than that connected with the duties of office.

Accordingly, no employee shall knowingly become involved in a conflict of interest or, upon discovery thereof, allow such a conflict to continue without the express permission of the CEO.

In addition, Staff are required to report to the CEO any circumstances where an offer of a benefit or gift is made – regardless of whether it is accepted or not. It is at the CEO's discretion as to whether gifts can or can't be accepted, the CEO also has the authority to direct that any gift be returned if considered that the gift is inappropriate.

All benefits (accepted or not) will be registered on the [WGCMA Register of Responses to Reportable Gift Offers](#).

All employees are expected to comply with the 'Conflict of Interest' provisions of the 'Code of Conduct for the Victorian Public Sector'.

### 6. DEFINITIONS

#### **Conflict of Interest:**

As defined by the Victorian Public Sector Commission, a conflict of interest occurs when there is a conflict between the public duty and the private interests of any public official. All public officials need to ensure that their private interests do not influence, or be seen to influence their decisions or performance of their public duties.

Conflicts of interest may be actual, perceived or potential:

- An actual conflict of interest is one where there is a real conflict between public duties and private interests
- A potential conflict of interest arises where an official's private interests could conflict with their public duties
- A perceived conflict of interest is where a third party could form the view that private interests could improperly influence a public official's actions, now or in the future.
